E120-A, Austin 78727

Dear Mr. Jastroch:

Re: QTSL Commercial Laboratory Suitability Approval Notice, FSC 5961/5962, CAGE: 6GG03, VQC-24-038722, CN: 088072

Based on the results of the DLA Land and Maritime audit conducted 28-29 June 2022, GD4, Austin is considered suitably equipped to perform the QTSL tests, listed in the enclosure on 5961/5962 devices in accordance with the requirements of the QTSL program effective immediately.

Your laboratory is to maintain a record for all microcircuit testing and submit a summary annually to DLA Land and Maritime-VQ which will include the following as a minimum:

a. Part number, SMD, or MIL-STD identification
b. Date code
c. Quantity tested
d. Number of devices pass/fail
e. Manufacturer
f. Manufacturer's lot number
g. Test method(s)/condition(s)
h. Date test completed
i. Qualification test report number as applicable
j. Self audit reports with deficiencies and corrective actions

The standard retention reporting period is from 01 January through 31 December. Your report is then due by 01 March the following year.

Test labs shall notify the qualifying activity immediately after learning of a potential issuance of a GIDEP alert, problem advisory, or major quality/reliability problem on their products utilizing the test methods on the attached enclosure. Failure to provide prior notification may be grounds for removal from DLA Land and Maritime's Commercial Lab Suitability Listing.

This laboratory suitability is valid subject to the conditions as stated in DoD 4120.24-M and SD-6. This laboratory suitability is valid until withdrawn by DLA Land and Maritime. Any deviation to the test method or condition(s) listed herein must be approved by the Qualifying Activity.

Largo, FL 33773

Dear Mr. Jastroch:

Re: QTSL Commercial Laboratory Suitability Approval Notice, FSC 5961/5962, CAGE: 89NB4, VQC-23-037513, CN: 082747

Based on the results of the DLA Land and Maritime audits conducted 28-29 June 2022 in Austin, TX, and 9-11 August 2022 in Yaphank, NY, and internal audit results submitted by GD4 Test Services for their Largo, FL facility, GD4 Test Services, Largo is considered suitably equipped to perform the QTSL tests, listed in the enclosure on 5961/5962 devices in accordance with the requirements of the QTSL program effective immediately.

Your laboratory is to maintain a record for all microcircuit testing and submit a summary annually to DLA Land and Maritime-VQ which will include the following as a minimum:

a. Part number, SMD, or MIL-STD identification
b. Date code
c. Quantity tested
d. Number of devices pass/fail

h. Date test completed
i. Qualification test report number as applicable
j. Self audit reports with deficiencies and corrective actions

The standard retention reporting period is from 1 January through 31 December. Your report is then due by 1 March the following year.

Test labs shall notify the qualifying activity immediately after learning of a potential issuance of a GIDEP alert, problem advisory, or major quality/reliability problem on tested products utilizing the test methods on the attached enclosure. Failure to provide prior notification may be grounds for removal from DLA Land and Maritime's Commercial Lab Suitability Listing.

This laboratory suitability is valid subject to the conditions as stated in DoD 4120.24-M and SD-6. This laboratory suitability is valid until withdrawn by DLA Land and Maritime. Any deviation to the test method or condition(s) listed herein must be approved by the Qualifying Activity.
